TRIANGLE-SAUNAHEATER TYPE 3-33

Triangle-Saunaheater – standing model for private and moderate commercial use in home and business saunas.

A heater that offers new possibilities of interior design due to its special shape.

Its location variability with a small footprint, for example as a hidden corner installation or in the corner entrance of a 5-corner cabin enables new and flexible sauna designs.

The double-casing construction ensures direct heat dissipation and convection with optimal air exchange.

This results in a dry and pleasant sauna climate by a low-noise operation.

Heating power per heating element only 1000 watts, therefore low surface load and long service life.

Technical Datas:

Outer casing:	Chromium-steel, (shiny)
Top-frame:	Stainless steel, brushed
Stone-basket:	Chrome-steel, without contact to the heating-elements
Inner casing:	Chrome-steel, with drip protection
Electric connection:	junction box, integrated
Heating elements:	á 1000 watts, very low heating rod load and long life term.
Heating capacities:	4 5 6 7 8 and 9 kW
Power connection:	400V 3N AC
Dimensions (WxDxH):	56 x 33 x 95 cm – (Shank: 40 cm)
Safety distance:	minimum 10 cm on all sides to flammable parts
Stone filling:	ca. 10 kg
Heater weight net:	ca. 25 kg

Recommended room size of the sauna cabin according to the table. (Basic = RAL-Guideline for sauna cabins in buildings)

Heating-power kW	4	5	6	7	8	9
Suitable for Sauna cabins m³	4 – 5	5 – 6	6 – 8	7 – 9	8 – 10	9 – 12
